

a lifetime of digital care

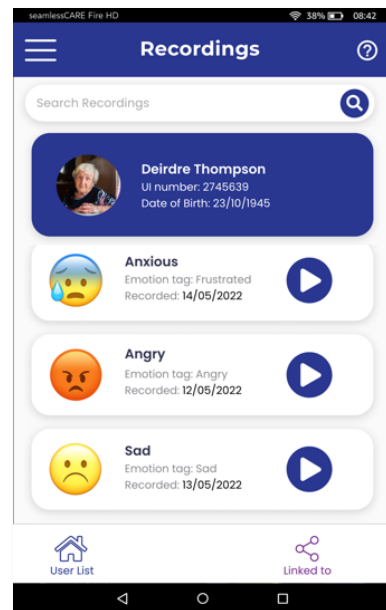

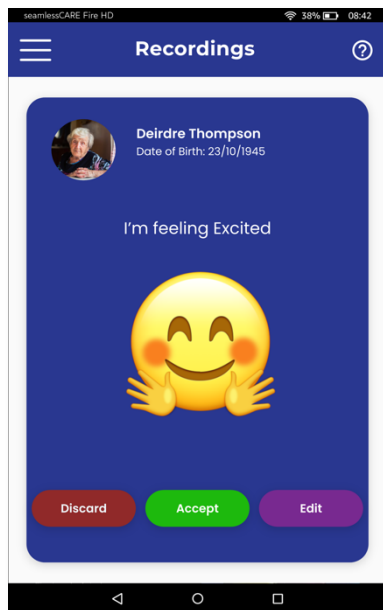

Easy Read Information

What is SeamlessCARE?

seamlessCARE is a company that finds new ways to help people communicate. We have made an app called *Empathic*. It helps people to understand how you feel, even if you cannot use words.

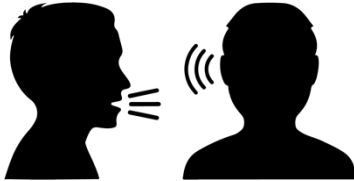

How does the app work?

People can record your voice using a phone or smart tablet. Then the app shows them an emoji. This lets them know if you are happy or sad. It helps them to understand other feelings too.

Thank you for reading this information.

Why did we make Empathic?

We want to make it easier for people to understand you. We want everyone to listen to you and to know how you feel.

What do I have to do?

You just speak as normal. People will record your voice for less than 10 seconds with their smart phone or tablet.

Do you have to agree?

No. It is your choice. You can change your mind and stop using the app at any time. If you feel upset or uncomfortable at any stage, please let someone know. You can say that you do not want to be recorded.

Will anyone else hear the recordings?

Members of the *seamlessCARE* team will hear the recordings. However, no one will know that it is you. All your personal information will be safe.

What are your rights on personal and sensitive data?

You can ask to see your information. You can talk to a member of the seamlessCARE team or to the Data Protection Commission (www.dataprotection.ie).

Dr Aviva Cohen is in charge of the company that makes *Empathic* app it is called *seamlessCARE* Ltd.
